

To,
District Engineer
CESC Ltd.
433/1, G. T. Road (North)
Howrah

Dated: 18/09/2023

Report and enquire about questionable connection at 57, Dingsai Para Rd.

Dear Sir,

I, Chirantan Mukherjee, S/O Late Wg. Cdr. A.K. Mukherjee, am a resident of 56, Dingsai Para Road, under your service area.

This is a humble reminder, w.r.t my earlier letter on 14/06/2023 to yourself, regarding the following information:

1. What needs to be done to segregate the lines of 56 (ours) and 57 (neighbour's)?
2. What needs to be done to remove the 'unlawfully planted' post?

The information I seek are urgently required to address and correct the problems that have arisen due to your callous actions - as I have clarified in my previous communications, where I have categorically informed yourself of the followings:

1. Your recent actions drastically change the status quo in the area, and are in violation of the order of U/s 144(2) CrPc (Misc Petition No. 295 of 2022) in the Office of 2nd Court of Ld. Executive Magistrate, Howrah – being in effect from 7th March 2022, and currently further extended till today, 18th September 2023.
2. That your actions are exploited to provide unlawful possession to parties, and therefore aid and abet the violators of the afore-mentioned order - more so because the new entrants are vehemently using, trespassing, and thus, encroaching into our property.

You may please find all such information of the dispute at <https://www.storyof57.com>, and find my previous communications publicly available for your kind perusal at:

<https://www.storyof57.com/cesc-attempt>

<https://www.storyof57.com/cesc-unlawful>

This will provide you with further clarification for the need of my requested information, in order to redress the wrongs that have already been done, and the unnecessary complications caused due to your callous actions.

Irrespective of such legal proceedings, I completely fail to understand why, on whose request, and under what circumstances was the CESC post unlawfully installed on our property – without any prior information, permission, or communication. And if such installation can be exploited for such drastic change in status quo, why haven't been other parties, that the property is "common" with, been consulted – considering that your office was working under the misunderstanding that our property was referred as "common road" in the alleged fraudulent, fabricated deed of 57, Dingsai Para Road.

And although your office is behaving as a governmental organization using its might without appropriate permission, all and any information sought are returned with your usual, convenient '... the provisions of RTI Act, 2005 are not applicable to this office since it is not a "Public Authority" ...' reply. Please find such 'template' reply publicly available for your kind perusal at:

<https://www.storyof57.com/cesc-template-rti-reply>

Under such circumstances, I sincerely hope to receive such information from yourself, without having to escalate the matter unnecessarily.

Thanking you, in anticipation of your early response and kind co-operation.

Chirantan Mukherjee
